TAX STAMPS

A Technical Study and Market Report

The definitive source of data and analysis on the tax stamp market worldwide for tobacco and alcohol

- The second survey of the global market for tax stamps
- Giving you key market data and analysis on consumption, opportunities and trends
- Essential reading for those involved in specification, production, distribution, application, verification and enforcement for tax stamp programs
- Published by Reconnaissance International - organisers of the Tax Stamp Forum and publishers of Tax Stamp News

CONTENTS

- The history and development of tax stamps
- Consumption, regulation, taxation and the illicit trade
- How tax stamp programs work
- Components, systems and materials
- Production, application and authentication
- The digital revolution - control, investigation and enforcement
- Case studies
- Market analysis
- The future
- Country and regional tables

This will be the second study available to examine and analyse:

- the evolution and implementation of tax stamp programs around the world
- the factors – social, economic and political – driving the growth of such programs
- the stakeholders – specifiers, manufacturers, distributors, enforcers and suppliers
- formats and methods of production, individualisation, application and distribution
- key suppliers
- ROI - securing revenues, improving supply chain security, preventing counterfeits
- future methods and technologies

TAX STAMPS: A Technical Study and Market Report

This detailed report will provide invaluable, authoritative and previously unavailable data, analysis and insight into the global market for tax stamps in the context of fiscal verification, supply chain security and product authentication.

WHO SHOULD READ IT?

- Government departments (revenue, customs and excise)
- Manufacturers, distributors and wholesalers of tobacco and alcohol products
- Security printers, converters and labelling companies
- Tax stamp systems and equipment manufacturers
- Project managers and systems integrators
- Suppliers of substrates, components, authentication technologies, track and trace systems
- Manufacturers of application systems

HOW YOU WILL BENEFIT?

Governments and Issuers

Minimise fraud and maximise your tax returns by learning about best practice from countries across the world; read about state-of-the-art security products and systems to specify for your tax stamps.

Printers and Producers

Find information on equipment, systems or components to improve cost-effectiveness and benefit your customers with the latest and most effective anti-counterfeiting and track & trace components.

Component and Material Suppliers

Learn who does what in the issuance, specification, design and production of tax stamps around the world. Learn what works and what issuers want.

And discover the trends and future developments
